

ACTIVE JUICE

ACTIVE JUICE is an innovative line of ingredients for cosmetics based on freshly centrifuged fruits and vegetables following the latest healthy foods and diet trends.

ACTIVE JUICES are produced on-demand with fresh fruits and vegetables to maximize the contents in active molecules and nutrients.

No chemical solvent is used in any step of production of our ACTIVE JUICE, making the products completely safe and environmentally friendly.

We can produce fresh centrifuged products and bespoke mixes according to our customers' requests.

All the products in this line can be used in organic certified cosmetic formulations.

Typical INCI name: [name of the plant] juice, citric acid, sodium benzoate, potassium sorbate.
